Brian Eno will be in Italy, in Mantua, on June 25th for the event **77 Million Paintings for Palazzo Te**. The British artist, after different exhibitions worldwide, has created an installation conceived as visual music specifically for Palazzo Te for Mantua – Italian Capital of Culture 2016. Up to July 2, the Renaissance façade of the museum will be the canvas on which a light work with a strong multisensory impact will come to life thanks to the projection of images in continuous evolution. Until 17 July, Palazzo Te will also host **The Ship**, the sound installation based on a track of the latest album of the artist. For more information <http://www.centropalazzote.it/>.
